Amman, Jordan

Dear Sir,

You have requested that we extend the audit of the financial report of the MINARET project as stipulated in the agreement between Royal Scientific Society of Jordan/ National Energy Research Center (RSS/NERC) and Swedish International Development Agency (SIDA), support to financial report for the period covering:

- 01 January 2020 to 31 December 2020 for Royal Scientific Society of Jordan/ National Energy Research Center (RSS/NERC);
- 01 January 2020 to 31 December 2020 for International Union for Conservation of Nature "IUCN"; and
- 01 January 2020 to 14 November 2020 for Horizons for Green Development "HFGD".

We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audit will be conducted with the objective of our expressing an opinion on the project financial report.

We will conduct our audit in accordance with International Standards on Auditing (ISAs). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the project financial report is free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the project financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the project financial report, whether due to fraud or error. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the project financial report.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, there is an unavoidable risk that some material misstatements may not be detected, even though the audit is properly planned and performed in accordance with ISAs.

In making our risk assessments, we consider internal control relevant to the entity's preparation of the project financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies in internal control relevant to the audit of the project financial report that we have identified during the audit.

Our audit will be conducted on the basis that management and, where appropriate, those charged with governance acknowledge and understand that they have responsibility:

- a) For the preparation of project financial report that give a true and fair view in accordance with SIDA's standard terms of reference for annual audit project/ programme support;
- b) For such internal control as management determines is necessary to enable the preparation of project financial report that are free from material misstatement, whether due to fraud or error; and
- c) To provide us with:
  - i. Access to all information of which management is aware that is relevant to the preparation of the project financial report such as records, documentation and other matter;
  - ii. Additional information that we may request from management for the purpose of audit; and
  - iii. Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence.

As part of our audit process, we will request from management and, where appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

We look forward to full cooperation with your staff and we trust that they will make available to us whatever records; documentation and other information are requested in connection with our audit.

### Fees

- Our fees, which will be billed as work progresses, are not contingent on the result of our service and are based on the time required by the individuals assigned to the engagement plus direct out-of-pocket expenses. Individual hourly rates vary according to the degree of responsibility involved and the experience and skill required.
