

FROM LOCAL NEEDS TO OPPORTUNITIES, HOW NEXUS IS SHAPING COMMUNITIES

The MENA Region Initiative as a Model of NEXUS Approach and Renewable Energy Technologies (MINARET)

Can municipalities utilize NEXUS approach to rethink how we produce and consume water, energy and food? MINARET Project envisions municipalities as the hub, bringing decision-makers, investors and communities to address their sustainability challenges.

MINARET (funded by Sida) is the first project in the MENA region which activates the role of municipalities in utilizing a NEXUS approach to find sustainable solutions to the region's water, energy and food challenges.

When?

**Thursday 29
August**

17:00-17:45

Where?

Room M1

MINARET enables communities to participate in transitioning their cities to renewable energy, and addresses challenges that face municipalities in MENA region (Jordan, Lebanon, and Tunisia) by increasing local and regional sustainability capacities using the synergies between renewable energy technology and efficiency, water management, and food security.
